► Sponsors can check in anytime between 5-7PM to attend the Opening Ceremonies and table in the Sponsor Section and mingle with hackers. Your representatives can table for as long as you desire, giving out company collateral, internship/job opportunities, and helping out with hacks.

► All Social Events/Games are Workshops are open to both sponsors and hackers, but are focused on building connections, learning, and relieving pressure from the hackathon experience.

► WIT Social is geared to offer a mixer social for female, non-binary, or gender non-conforming individuals.

► We will be providing meals and snacks to accommodate vegetarian, vegan, and some dietary restrictions.

# Workshop Breakdown

- ▼ Beginner-Friendly
- ▼ Not Easy, but try it!
- ▼ Kind-Of Challenging

## Machine Learning ▼

Learn how to make a mini-neural network and the basics of Machine Learning with Teachable Machine! Conceptual ML without code.

## "Git" started with Github ▼

Coding and creating with a team simplified. Learn the pushes and pulls of Github to make collaboration on your solution so. much. easier.

## Configure a Pi ▼

We're not talking blueberry or ~3.14. Configure the Raspberry Pi (credit-card sized computer) to do stuff with guest, Dr. Thackston.

*More Workshops will be added as slots are filled.*
